

PLS 3rd Learning Accessibility Conformance Report

508 Edition

(Based on VPAT® Version 2.5)

Name of Product/Version: Idaho Report Card

Report Date: March 12, 2025

Product Description:

The Idaho Report Card is a collection of school progress measures related to school and student success. The Index includes a range of assessment, on-track, and readiness indicators, to more accurately report student learning, growth, and success in the classroom and beyond.

Contact Information: Regis Marrale, Director of ADA Compliance, rmarrale@pls.3rdlearning.com

Notes:

Performance Learning Systems/PLS 3rd Learning (PLS) is committed to developing accessible web applications and has procedures in place to ensure that any new development conforms to the WCAG A/AA guidelines and 508 standards. As new web-based functionality is developed, it goes through a rigorous testing process for accessibility. Employees have completed accessibility training administered by third-party organizations and have gone through accessibility training facilitated by our Director of ADA Compliance. In addition to testing our code after initial deployment, WCAG compliance has been incorporated into our design and development processes from the earliest phases of brainstorming and ideation through development, to public release. As outlined below, in some cases a SortSite report may indicate an error that, upon internal discussion between developers and the Director of ADA Compliance, is deemed

irrelevant, erroneous, or can be sufficiently rationalized. In addition to meeting the WCAG A/AA guidelines, we strive to make our sites as accessible as possible and meet many of the WCAG AAA guidelines.

Evaluation Methods Used:

Evaluated using Chrome on a Windows 10 computer. Technologies used in this evaluation included NVDA, a screen reader, and SortSite, a web crawler that scans for accessibility issues. Manual testing and the exclusive use of a keyboard were also used during evaluation.

Applicable Standards/Guidelines

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
Web Content Accessibility Guidelines 2.2	Level A (Yes) Level AA (Yes)

Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

WCAG 2.2 Report

Note: When reporting on conformance with the WCAG 2.2 Success Criteria, they are scoped for full pages, complete processes, and accessibility-supported ways of using technology as documented in the [WCAG 2.2 Conformance Requirements](#).
