

Idaho Report Card

Welcome to the Idaho Report Card.

There are over 700 public schools and 180 districts in Idaho.

Users can search by school name, district name, or location.

SEARCH BY SCHOOL

When the school icon is selected (see arrow #1), the results table displays hot links for schools and districts alphabetically by groups of twenty. Scroll down the list or page the table to find a school or district (see arrow #2).

Select the school (see arrow #3) or district (see arrow #4) by hovering over and then clicking the link.

Data Release Calendar 🗅									
		_			Search by:

			Adams Elem	nentary School	D	Bolse Indepen	dent District	к - 6	
			Adoms Elem	nentary School	Д	Modison Distri	21	к - 4	

The search field can be used to find a school or district by name. A dropdown selection appears when users type in the first few letters of the school building's name (see arrow #5). Find the school in the dropdown, select the school, and the results table will show the details. Use the link in the results table to go to the school or district home page.

The kickin Report Card is a collection of school program measures related to school and student success. The kickin Report Card is a collection of school program measures related to school and student success. The kickin locating and measurement on the collection and second and student.

SEARCH BY DISTRICT

When the District icon is selected (see arrow #6), the results table shows a link for the district and the address. Select the district's link to go to the district's homepage. Scroll and page through the table to find a district. The search field can also be used when the district's name is known.

SEARCH BY LOCATION

If the school's name or district name is not known, the user can search by location (see arrow #7). Select the Location icon.

Place the cursor in a county and select to see the districts in that county (see arrow #8).

Place the cursor in the district area for the display of schools (see arrow #9).

Select the school's red circle to go to the school's home page (see arrow #10).

A listing of the district's schools can be found in the table below the map of Idaho (see arrow #11). As the user drills down into the map, the table is filtered to reflect the number of schools shown in the display. Use the Reset Map button to return to the map of Idaho after drilling down to county, district, or school (see arrow #12).

SEARCH BY STATEWIDE

Users can also select the Search by for Statewide (see arrow #13), which will display the link to the Idaho statewide page in the results table.

REFINE SEARCH BY SCHOOLS OR DISTRICTS

The results table lists all the schools and districts in Idaho. Use the Refine Search to filter this list. By making categorical selections, the results table adjusts to show the schools or districts that meet the selected criteria.

To filter for schools, click the School Icon (see arrow #14), open the Refine Search tool's information, demographic, measure, or district (when the school's icon is selected) categories (see arrow #15), and determine which criteria to select.

Information selections include grades, school type, enrollment numbers, setting, and legislative districts.

Demographic selections include race/ethnicity, gender, and student groups.

Measure selections include achievement, growth, and success indicators.

Select from as many or as few of the choices in each option to generate a results table containing schools meeting the selection criteria.

Selections take place using sliders or checkboxes.

For example, position the sliders to grades four to eight (see arrow #16), and all schools or districts containing grades four to eight will be displayed in the results table.
